

HAVEN SMART BATTERY POWER MODULE

With our smart battery management system product, we provide uninterrupted power during the charging process, real-time monitoring of parameters, and customized solutions tailored to the user's needs.

TECHNICAL SPECIFICATIONS

User Interface

3S-5S Series Li-ion

RS485 / CAN Connection

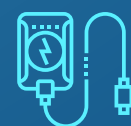

Onboard Charging

User Custom Design

Auto Cell Balancing

Uninterruptible Power Transfer

External Regulator

Charge Voltage 15.5V-28V

Output Voltage 9V-28V
